[PROJECT] **Olive-Net** - [Bioactive compounds from Olea europaea: investigation and application in food, cosmetic and pharmaceutical industry](#)

ID: 734899

Start date: 2017-03-01, **End date:** 2021-02-28

The goal of Olive-Net project is to introduce a novel approach for the exploration, valorization and marketing of new products based on bioactive compounds from Olea europaea. This will be achieved through an extended and well-balanced scheme of researcher's secondments...

Programme: H2020-EU.1.3.3.

Record Number: 207069

Last updated on: 2017-08-22

[PROJECT] **GENOLIVE** - [Historical Genomics of the Mediterranean Olive tree](#)

ID: 220813

Start date: 2008-09-15, **End date:** 2010-09-14

The goal of GENOLIVE is to support the career development of an experienced researcher through training and the completion of a research project on the post-glacial history of olive populations. It will contribute to the acquisition of specific scientific competencies (pyrose...

Programme: FP7-PEOPLE

Record Number: 89831

Last updated on: 2017-05-29

[PROJECT] **OLITEC** - [Bioactive natural compounds extracted and isolated from olive tree using modern technologies: Probing into their therapeutic potential](#)

ID: 230763

Start date: 2009-06-01, **End date:** 2013-05-31

OLITEC is a collaborative research project between academic community (Universities of Athens-Greece and Paris Descartes-France) and industry (Hitex-France, Lavipharm-Greece and Frutarom-Switzerland) focusing in the advance of new technologies and the development of new produ...

Record Number: 90638

Last updated on: 2017-05-25

[PROJECT] **TOAS** - [New remote sensing technologies for optimizing herbicide applications in weed-crop systems](#)

ID: 293991

Start date: 2011-09-01, **End date:** 2015-08-31

Agricultural production requires the use of herbicides as an essential tool to control weed infestations. Associated environmental and economic concerns have led to the creation of European policy that encourages farmers to optimize their use. These components are part of the...

Programme: FP7-PEOPLE

Record Number: 99782

Last updated on: 2017-05-22

[PROJECT] **OLITREVA** - [Capacity Building for Sustainable Treatment and Valorization of Olive Mill Waste in Palestine](#)

ID: 295107

Start date: 2011-10-01, **End date:** 2014-12-31

As for the whole Mediterranean, for thousands of years, the olive tree has been an integral part of the Palestinian landscape: a symbol of Palestinian identity, culture and tradition. Nowadays, around 100.000 families in the West Bank depend on olive cultivation as their main...

[PROJECT] **SAFIR** - [Safe and High Quality Food Production using Poor Quality Waters and Improved Irrigation Systems and Management](#)

ID: 23168

Start date: 2005-10-01, **End date:** 2009-09-30

The present proposal addresses two fundamental problems that over the past decade increasingly have become concerns of the general public: the one problem being the jeopardizing of safety and quality of our food products, while the other being the increasing competition for cl...

Programme: FP6-FOOD

Record Number: 78629

Last updated on: 2009-05-13

[PROJECT] **TRIPHELIO** - [Sustainable control of lepidopterous pests in olive groves - integration of egg parasitoids and pheromones.](#)

ID: ICA4-CT-2001-10004

Start date: 2001-11-01, **End date:** 2005-04-30

Several Lepidopterous insect species are key pests of the olive tree in Mediterranean countries and are controlled by frequent insecticide applications These cause environmental pollution and contamination of the olive products. The proposed project TRIPHELIO will develop an e...

Last updated on: 2005-04-12

[PROJECT] [Capability of olive tree to mine nutrients from rock fragments](#)

ID: HPMF-CT-2000-01016

Start date: 2001-04-01, **End date:** 2003-03-31

Programme: FP5-HUMAN POTENTIAL

Record Number: 56433

Last updated on: 2005-04-12

[PROJECT] [Compliance and Control of Agricultural and Regional Policies](#)

ID: 4313

Specific Objectives: The content of the MARS PAC action is structured into eight work-packages: 1. Controls with Remote Sensing To coordinate controls with remote sensing including the purchase of satellite data on DG AGRI budget line (2 Mio /year), and to perform quality c...

Programme: FP6-JRC

Record Number: 70925

Last updated on: 2003-10-22

[PROJECT] [Monitoring agriculture with remote sensing \(MARS\)](#)

ID: 1987

Specific Objectives The project was initially divided into 8 Work packages. - In 2002; MARS project will be restructured into 3 sub-projects; - MARS PAC 661: RS Controls, LPIS, OLI-VITI-GIS, AEM, PECO, RAM; - MARS STAT 662: MARS Bulletin, LUCAS, ICARE - MARS FOOD 663: Food se...

[PROJECT] [Organic waste](#)

Llistat de projectes europeus sobre "olive tree"

Font: CORDIS

ID: 4.1030/C/00-018

Start date: 2001-03-31, **End date:** 2003-03-30

Description of project objectives: - Show the feasibility of joint treatment of the local wastes in the heated municipal digester and find conditions and optimal mixture to do it, during one-year operation; - Set-up a global approach methodology for waste treatment, applicatio...

Programme: ENG-ALTENER 2

Record Number: 60618

Last updated on: 2002-05-22

[PROJECT] [IMPROVEMENT OF IRRIGATION EFFICIENCY IN NUT CROPS \(ALMOND, HAZEL, WALNUT AND PISTACHIO\) IN AREAS WITH LIMITED WATER RESOURCES IN ORDER TO REDUCE PRODUCTION COSTS](#)

ID: 80010301

Start date: 1991-10-01, **End date:** 1995-06-01

Nut crops are in limited supply within the European Communities (EC) but there is a need to reduce the costs of European nut production if it is to compete with other nut production areas in the world. Irrigation is one of the agricultural practices that has most effect on pr...
